5 years of experience as a Software Developer and Engineer. I was a QA at META4 S.L. and a Full Stack Developer at AICOR, Now I am Full Stack Developer at Copyfly where I am working with no-sql databases and elasticsearch.

PROFESSIONAL EXPERIENCE

CopyFly   **Almería,Spain**
Full Stack developer (React / Firebase / ElasticSearch)   *Ago. 2024 – Feb 2025*

- Managed order search processes among high-volume database records, improving performance with Elasticsearch.
- Continuously improved the Copyfly product to maintain its leading position in the paper printing market.

Gap to study English   **Remote, Spain**
                                                                                                                                          Nov. 2023– Actually

Aicor Consultores   **Remote, Spain**
Full Stack developer (React / Laravel)   *Oct. 2021– Feb. 2024*

- I led the development of a web application for vehicle rentals for an emerging company in the sector. A modern dashboard with rental billing functionality.
- I developed a Starter Kit unifying most of the company's needs to initialize projects. An advanced API with Laravel, a client with React/Vite, and a mobile application with Expo.
- I designed and recommended CI/CD workflows using GitHub Actions to improve delivery efficiency for our clients, both on AWS and VPS environments.

Family Business / Musician / Others   **Córdoba, Spain**
Others   *2017 – 2020*

Web Developer Consultant / Tutor   **Córdoba, Spain**
